# DMX-USB PRO

Born from the Open DMX USB interface the PRO version is the **ultimate USB DMX adapter** for all computer based lighting needs.

Features

- Micro processor enabled
- 1500 V full isolation (data & power lines to protect your computer from surges)
- 1 Input & 1 Output connector (there is only one DMX port though)
- RDM (talkback) compatible
- Internal frame buffering (will work on any PC)
- Will talk at any comm's speed, compatible with any system for which the FTDI chip has drivers (Windows, OSX, Linux..)
- Universe & user config EEPROM
- Refresh Rate configurable from 1 to 40Hz
- Break configurable from 96uS to 1.3mS
- MaB configurable from 10.6uS to 1.3mS
- No Receive framing problems (compared to Open DMX USB)
- Upgradeable firmware
- Security / software protection API

Part number: 70304
