	LIGHTMASTER XLS .....	18XR-HI
	ILLUSION, SIRIUS 250, 24 .....	12XR-HI
3G LIMITED .....		18X-HI

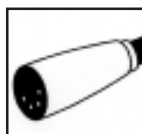

The models listed are suggestions. You can substitute your light of choice within the same connector series. In other words, an 18X-HI can be replaced with a 12X-LED, etc. Littlite LED goosenecks will not operate on some consoles with a task light dimmer unless the dimmer is set to operate at full output. This information is accurate to the best of our knowledge. Please consult your owner's manual.
